

Daisy Wholesale WLR3

Enhanced operational efficiency

Beat the competition using WLR3 from Daisy Wholesale

We provide a project managed approach to support the transition of WLR2 to WLR3, with a fully functional portal provided free of charge. Our full service offering is supported by a dedicated, experienced customer service and faults team.

By using the Daisy Wholesale portal, you can book engineer appointments while you've got a customer on the line, instead of having to call back later. Order entry, processing and fault reporting are round the clock activities with WLR3, so you can always respond to customers in a positive manner, whatever time of the day or night they contact you.

Instant benefits with Daisy Wholesale WLR3

- ✓ Transferring lines with calling and network services
- ✓ Access to prospect information allowing you to tailor your solutions
- ✓ Ability to reactivate stopped lines
- ✓ Automated order processing across provisioning and assurance.
- ✓ Line testing

helping your business **grow**
